CAREER OBJECTIVE

Aspiring Software Engineer with strong proficiency in Java, Spring Boot, MySQL, and DSA. Passionate about building scalable products, writing clean & testable code, and solving real-world problems with an ownership mindset. Eager to learn from mentorship while contributing to high-quality software development and collaborative engineering environments.

EDUCATION

Acropolis Institute of Technology and Research Bachelor's in Computer Science & Engineering , GPA 8.01	Indore, India November 2022 - August 2026
S.I.C.A Senior Secondary School Class XII (CBSE), 83.4%	Indore, India April 2021 - July 2022

SKILLS SUMMARY

- **Programming Languages:** Java, SQL, C++
- **Backend Technologies:** Spring Framework, Spring Boot, Hibernate, JPA, JDBC, RESTful APIs, JUnit 5
- **Database:** MySQL
- **Testing:** JUnit 5, Unit Testing
- **Tools & IDE :** Git , GitHub , IntelliJ , Eclipse , Spring tool suite , VS Code
- **Core Competencies:** Data Structures & Algorithms, OOP, DBMS

TRAINING

FULL STACK JAVA DEVELOPMENT TRAINEE	July 2025 – August 2025
○ Completed an intensive, hands-on Java Full Stack training program, covering backend (Java, Spring) and front-end integration. ○ Worked with mentors to improve debugging efficiency and code quality. ○ Consistently stood out among peers for exceptional grasp of advanced Java concepts, often sought after for guidance and problem-solving support during collaborative sessions.	

PROJECTS

Job Portal Backend Developer	August 2025 – December 2025
○ Tech Stack: Java, Spring Boot, Spring Security (JWT), Spring Data JPA, MySQL, Postman. ○ Designed a role-based job management system enabling admins to manage companies & job postings. ○ Developed advanced search APIs for jobs based on title, location, and company with pagination support. ○ Owned backend architecture design and feature outcomes end-to-end.	
	LINK
Events Hub Backend Developer	August 2025 - November 2025
○ Designed and implemented RESTful APIs for events, user profiles, and hackathon team posts with role-based access control. ○ Modeled and managed database schemas to persist events, users, roles, and HackFinder listings, ensuring data consistency and scalability. ○ Independently handled backend modules with end-to-end ownership for delivery. ○ Collaborated with the team on system architecture, integrations, and evolution.

CERTIFICATES

Programming in Java IIT Kharagpur (NPTEL) CERTIFICATE	Jul 2025 – Oct 2025
○ Developed strong proficiency in object-oriented programming (OOP) concepts including inheritance, polymorphism, interfaces, and abstraction. ○ Gained hands-on experience with exception handling, multithreading, and core Java APIs, strengthening problem-solving and application design skills. ○ Achieved an Elite + Silver Badge, reflecting high performance and strong conceptual understanding.	
Getting Started with Competitive Programming IIT Kharagpur (NPTEL) CERTIFICATE	Jul 2024 – Oct 2024
○ Built foundational skills in competitive programming and algorithmic problem solving. ○ Practiced basic data structures, logical thinking, and time-space complexity analysis through problem-based learning.
